As a customer, once I choose a pricing plan, I need to upload one or more media files from my computer or share it from cloud services.

D

As a customer, I need to see the details of my order (turnaround date and final price for the transcription of each file and the total price of the order).
As a customer, I need to be able to:
- Delete or Trim one or more uploaded files and get the new total price & turnaround time.
-Re-assign priorities between transcriptions by dragging up or down in a list of rows.
- See default delivery option checked (e.g. transcription files will be delivered by email).

G

As a customer, I need to set a password the first time I access de customer portal through a link into an email invitation of the Atexto's staff.

H **I**

As a Customer I need to be able to:
- See the Root Folder of the project where will be the media files transcribing one per row.
- See the file name, state of the work, length and estimated date of completion.
- Change order of list ordering by each column.
- Change the name of the root folder of the project, re-asing priorities between transcriptions by dragging up or down in the list of rows, and let me create sub-folders and put some rows in.
- Change the name of the files and folders.
After transcription is finished let me delete files or change their sub-folder.
- Undo everything.
- Download the transcription file in TXT and Word.
- Increase the speed of my project without accuracy loss by clicking a turbo button near the folder name.
